

Albi,
I just received my new CU glasses and after borrowing them from anyone and everyone I saw on the cliffs, I am happy to have a pair of my own. I have been climbing professionally for over 30 years and my neck has suffered along the way. I have spent hundreds of dollars at the chiropractor and in physical therapy. **These glasses are the future and I would recommend them to anyone.**

Sincerely,
Robyn Erbesfield-Raboutou
